

Parties at Peoria Elite

We have everything you need for fun, stress-free birthday parties. Our trained instructors will host a party for your child that emphasizes both fitness and FUN! The best part is our instructors take care of all the details so you can enjoy time with the kids at the birthday party too!

Available party times include both Saturday and Sunday afternoons, for 2 hours. The children will first spend 75 minutes in the gym for open play and structured games and activities. Your group will then have 45 minutes in our party area to enjoy cake, ice-cream, treats and gift opening. Don't worry about clean-up...we take care of that for you!

Children do NOT need to be registered for classes at PEGA to have their birthday party at the gym. Our ALL-SEASON facility provides a comfortable temperature any time of the year! It is air conditioned during the warm months and heated in the cold months. Peoria Elite, your birthday party destination for children of all ages!

Our Birthday Parties are designed for KIDS of pre-school and school age to have fun in our facility and on our variety of equipment. We ask that parents NOT use any of the equipment during the birthday party. The parents of the birthday child are allowed out on the floor to take pictures of the party if they desire.

Facility

Welcome to the PEGA facilities page. PEGA is the LARGEST (18,000 square feet) air-conditioned and heated gymnastic training facility in the Central Illinois region with state-of-the-art Olympic level equipment. The main training areas are made up of separate team's and recreational bars and beam areas, full size in-ground trampoline, tumble trak, two vault runways and vault table, and large 16'x26' loose foam pit, and a full competition spring floor with a rezi pit attached!

We recently added another 3,000 square feet dedicated preschool playhouse featuring age-appropriate gymnastics training equipment, playhouse with slide, climbing wall, and a custom-design platform with foam pit.
